Oldsmar, FL 34677

RE: Chemical Laboratory Certification
Lab ID #41560

Dear Ms Boardman:

Enclosed is your current chemical laboratory certificate authorizing your laboratory to analyze drinking water samples for specific parameters. Attached is a list of the specific analytes for which your laboratory is receiving certification. Certification is based on the use of EPA approved methods and detection limits and certification is to remain in effect until June 30, 2010. Application for renewal should be made thirty days prior to the expiration date by completing an application and submittal of the appropriate fee, audit sample results and home state certificate.

If you should have any questions regarding this matter or if you wish to be certified for additional parameters, please contact me at (334) 271-7791.

Sincerely,

A handwritten signature in black ink that reads "Thomas S. DeLoach".

The Alabama Department of Environmental Management

certifies that

Southern Analytical Laboratories, Inc.

Having met Department laboratory certification criteria, is approved to conduct Drinking Water analyses for the following:

Metals, Inorganics, Cyanide, Volatile Organic Chemicals, Pesticides, Herbicides, EDB and DBCP, PCB, Synthetic Organic Chemicals, Carbamates, Miscellaneous Synthetic Organic Chemicals, Total Trihalomethanes, Haloacetic Acids, Chlorite, Bromate and Radionuclides

Effective October 14, 2009 through June 30, 2010

Alabama Department of Environmental Management

Laboratory Number 41560

Southern Analytical Laboratories
Expires June 30, 2010

Analyte	Method		Analyte	Method	
Metals			EDB and DBCP		
Antimony	3113B		EDB (Ethylene Dibromide)	504.1
